

Payments Acceptance **NOW**

EASY, SAFE & SECURE

APS Mobile works as a fully functioning virtual terminal for the phone or portable computer

- Process payments with optional AVS entry
- Send receipts directly to a customer's email address
- View transaction history and manage your payments directly from the phone or computer
- Plus great features not available in a standard virtual terminal
 - Voice 2 Text
 - Reverse phone lookup for easily inputting customer information

APS Mobile Card Reader

Combine the application with the APS Mobile Card Reader and you have converted the merchant's phone into a practical point of sale device, perfect for small businesses that want the ability to process debit and credit card transactions securely and cost effectively but don't have the room in their budget for a costly wireless terminal.

Target Markets: On-the-Go Merchants

- Merchants that do business remotely
- Contractors - In Home Day Care
- Repairmen - Lawn Care
- Merchants that do business in the customer's home
- Cosmetic Sales - Home Interiors
- Vacuum Sales - Cookware Sales
- Any type of party sales

Accept credit cards anywhere

APS will help you to modernize your business by making transactions instantly, wherever you are! Simply download the application and activate your account and you are ready to make sales on the spot.

Works with iOS & Android

APS Mobile plugs into the standard headset jack of your smartphone or iPad.

Serious Security

By choosing APS, your mobile transactions are encrypted & sent in a highly secure manner, plus cards are accepted or declined instantly.

Clear pricing, fast deposits

Pay a convenient, low rate of 2.59% per swipe for Visa, MasterCard, Discover, & American Express. Get payments deposited in your bank account the NEXT day!
